Oceania Archive Cosmetics

Fairness note (Sep 2026)

Boutique, Traveler's Emporium, and Curio Crafter **540xx** pieces are **look-only costumes** (costume slots, no combat bonuses). The clean **522xx** costume lane is unchanged. Previously parked **551xx** archive costumes that lacked equip slots are now wearable costume armor.

Oceania Archive Cosmetics

The Oceania Archive is a curated set of cosmetic items being tested and released in batches. The items listed here are the currently active archive cosmetics with confirmed wearable visuals.

Note: Archive 551xx costumes that were parked as unequippable Etc items are now costume-slot armor. Some worn sprites may still look incomplete — report the ID if so. If an item is not listed here, it is not part of the active cosmetic rotation yet.

How To Use This Page

- Use the item ID if a staff member asks you to test or report an item.
- These are cosmetic visuals only unless a specific NPC or event says otherwise.
- If a costume appears invisible, broken, or causes an error, report the item ID and a screenshot in Discord.

Reporting Issues

If you find a visual issue, please include the item ID, your class, your character gender, and a screenshot. This helps us tell the difference between a missing sprite, a slot conflict, and a client patch issue.
