

Ocean Gear Quest

The **Ocean Gear Quest** is the progression path for earning the six-piece Ocean Gear set from **Maren the Tidewright** in Izlude.

Quest Giver

- **Maren the Tidewright**
- **Location:** Izlude

What You Are Building

This questline leads into the full Ocean Gear set, a water-themed custom equipment line tied to the drowned kingdom of Aequoria.

How It Works

1. Talk to Maren in Izlude.
2. Choose which Ocean Gear piece you want to work toward.
3. Turn in the required aquatic monster drops and zenry for that piece.
4. Repeat the process piece by piece until the full set is complete.

Important Materials

The exact material list should be filled in from the live NPC requirements, but this progression is known to use **aquatic monster drops** and connects naturally with **Coral Reef** rewards from Drowned Aequoria.

Why This Quest Matters

This is one of the core custom progression paths on OceaniaRO. It connects custom lore, instance rewards, and practical gearing into one clear route.
