Reworked Cards

Eight low-level cards that are vendor trash on most servers have been rebuilt into real early-game options. They drop from the same monsters as always, at the same rate — only what they do has changed.

In-game you can tell them apart because the name carries an **[OceaniaRO]** tag. If you see that tag on a card, the stats are ours, not the standard ones.

The eight cards

Card	Slot	Effect
Drops Card	Weapon	DEX +1, HIT +3, and +3% physical damage against Normal-class monsters
Hornet Card	Weapon	STR +1, ATK +5, HIT +5
Vadon Card	Weapon	+20% physical damage against Fire property, HIT +5
Drainliar Card	Weapon	+20% physical damage against Water property, HIT +5
Chonchon Card	Shoes	AGI +1, FLEE +5, Perfect Dodge +1
Spore Card	Accessory	VIT +2, and +3% to healing you receive from items and skills
Tarou Card	Accessory	STR +2, and +2% physical damage against Normal-class monsters
Poporing Card	Accessory	VIT +1, immunity to Poison, and Detoxify Lv1

Where they drop

Card	Monster	Best place to farm
Drops	Drops	Sograt Desert *(moc_fild07)* — by far the densest spawn
Hornet	Hornet	Prontera Field *(prt_fild05)*
Vadon	Vadon	Byalan Dungeon 2F *(iz_dun01)*
Drainliar	Drainliar	Sphinx 1F *(in_sphinx1)*, or Clock Tower Basement
Chonchon	Chonchon	Geffen Field *(gef_fild00)*
Spore	Spore	Payon Field *(pay_fild08)*
Tarou	Tarou	Coal Mine 1F *(mjo_dun01)*, or Prontera Sewers 2F
Poporing	Poporing	Payon Field *(pay_fild04)*

Notes

- **Normal class** means ordinary monsters — not MVPs, minibosses or Guardians. It covers essentially everything you level on, which is the point.
- **Vadon and Drainliar** keep their 20% elemental damage and now carry HIT as well, so they are worth a slot rather than a sell.
- **Poporing** now grants full Poison immunity on top of Detoxify, which makes it a genuine option for low-level dungeon runs.
- Card drops are announced server-wide — see *Card Hunt Announces*.
- Cards you do not want can be ground down at *Cardsmith Marlow* into Card Fragments.
